DESCRIPTION	These three days are designed to help you kick-off the 2007-2008 school year in style! These days will be dedicated to setting up your PowerGrade rank book in small group sessions. With the opening of the Parent Portal this fall, it is imperative that all middle school teachers are up to speed and using consistent coding within their rank books. We will also dedicate ample time to exploring the SMART Technologies Inc. software. We will transform current lessons into lessons that can be more efficiently used with the SmartNotebook Software. Every teacher will leave the sessions with a PowerGrade rank book that is fully functional and lessons to start the year with the SmartNotebook.
