

Great Oak Elementary
Mission Statement 2008

The Great Oak School is a community of elementary students, families and staff. All members of the Great Oak community recognize that successful teaching and learning can occur only in a safe and nurturing environment. Our mission is to maintain an inclusive learning community that respects and values the similarities and differences of all its members and expects them to engage in a continuous process of learning. All members will be empowered to reach their intellectual, social, emotional, creative and physical potential. This will provide our school community with the adaptability to succeed in the 21st century.
